Intellectual Property Rights

IPRs essential or potentially essential to the present document may have been declared to ETSI. The information pertaining to these essential IPRs, if any, is publicly available for **ETSI members and non-members**, and can be found in ETSI SR 000 314: *"Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards"*, which is available from the ETSI Secretariat. Latest updates are available on the ETSI Web server (http://webapp.etsi.org/IPR/home.asp).

Pursuant to the ETSI IPR Policy, no investigation, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in ETSI SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

Foreword

This Technical Report (TR) has been produced by ETSI Technical Committee Intelligent Transport Systems (ITS).

1 Scope

The present document describes the structure for the ITS domain within the common domain of the ETSI object identifier tree as defined in ETS 200 351 [i.1].

2 References

References are either specific (identified by date of publication and/or edition number or version number) or non-specific.

- For a specific reference, subsequent revisions do not apply.
- Non-specific reference may be made only to a complete document or a part thereof and only in the following cases:
  - if it is accepted that it will be possible to use all future changes of the referenced document for the purposes of the referring document;
  - for informative references.

Referenced documents which are not found to be publicly available in the expected location might be found at http://docbox.etsi.org/Reference.

NOTE: While any hyperlinks included in this clause were valid at the time of publication ETSI cannot guarantee their long term validity.

2.1 Normative references

The following referenced documents are indispensable for the application of the present document. For dated references, only the edition cited applies. For non-specific references, the latest edition of the referenced document (including any amendments) applies.

Not applicable.

2.2 Informative references

The following referenced documents are not essential to the use of the present document but they assist the user with regard to a particular subject area**.** For non-specific references, the latest version of the referenced document (including any amendments) applies.

[i.1] ETSI EG 200 351: "ETSI object identifier tree; Rules and registration procedures".

[i.2] ETSI TS 102 665: "Intelligent Transport Systems (ITS); Vehicular Communications; Architecture".

3 Definitions and abbreviations

3.1 Definitions

For the purposes of the present document, the terms and definitions given in [i.1], [i.2] apply.

3.2 Abbreviations

For the purposes of the present document, the abbreviations given in [i.1], [i.2] apply.

4 Structure of the ITS domain

4.1 Tree structure

Figure 1 represents the proposed global structure for the ITS domain. The ITS domain is located within the common domain of ETSI.

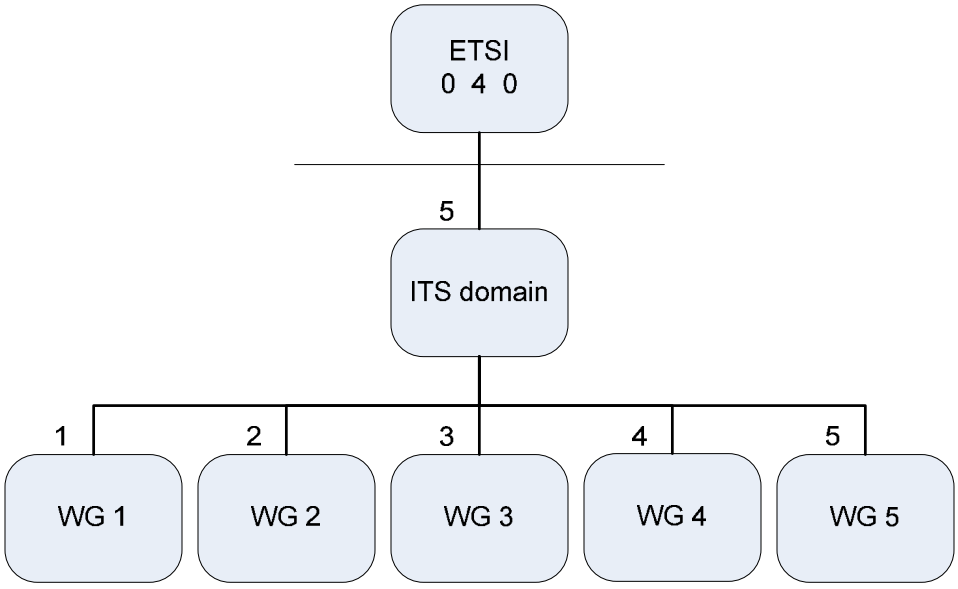

Figure 1: Tree structure of ITS domain

ETSI TC ITS WG2 acts as the formal registration authority for the first level of the ITS domain.

Each WG of TC ITS is assigned a branch within the ITS domain.

Each WG acts as administrator of the corresponding sub-tree.

4.2 ASN.1 description
